

HALDRUP GC-30

Seed counter

The HALDRUP GC-30 enables fast and highly accurate grain counting.

A wide range of individual adjustment options ensures that small seeds, such as canola, can be counted just as accurately as large seeds, such as maize.

With a counting speed of up to 3,000 grains per minute, the machine provides valuable support for efficient sample processing.

The user-friendly touchscreen allows users to save multiple individual recipes for each crop type, ensuring the right recipe for each variety and seed size. This ensures high precision and speed during counting and filling.
